## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 2, 5, 9, 10, 17, 21-28 are rejected under 35 U.S.C. 102 (b) as being anticipated over Fujisaki et al (US 5,746,268).

Fujisaki et al disclose the method of continuously casting metal by applying vibrating magnetic field to the molten metal. Vibrating the magnetic field by arranging electromagnets, each of which comprises an iron core and a coil wound over the iron core and applying AC current to the coil. The iron core either of individual single iron cores or comb shape iron core. The frequency of the AC current is between 0.1 to 60 hz. The AC and DC magnetic field are applied superimposed along the transverse width of the mold. The superimposed is applied from at least one pair of magnetic poles arranged to face each other above or below an ejection port of an immersion nozzle.

*Allowable Subject Matter*

3. Claims 4-6, 19, and 20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The prior arts of record fail to teach a combination of supplying a single phase AC current with a frequency less than 65 Hz.

*Response to Arguments*

4. Applicant's arguments with respect to claims 1-6, 9-10, 17, 19-28 have been considered but are moot in view of the new ground(s) of rejection.

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 1725

however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
